

COLLEGE ADMISSIONS INFORMATION

The single best indicator of college success is grades earned in rigorous high school courses that satisfy college preparatory criteria. Course rigor is an excellent predictor of college success. Therefore, we encourage students to take the most challenging courses that they can handle in order to develop skills and study habits needed to be successful at the college level.

College Preparatory Admission Requirements:

1. Minnesota State Universities (4-year): The Minnesota State Colleges and Universities website will provide general information about admissions requirements as well as links to each specific institution and their admissions requirements. Please refer to this website for the most detailed and updated information: <https://www.minnstate.edu/>. In general, Minnesota State Universities (4-year) require the following college preparatory classes when considering admission:

Subject Area	Number of Years	Special Recommendations
English	4	Including Composition, Literature and Speech
Math	3	Algebra 1, Geometry, Algebra 2
Science	3	Including one year each of biological and physical science
Social Studies	3	American History, Geography, World History
World Language	2	Two years of a single world language
Arts/World Culture	1	Visual or performing arts

2. The University of Minnesota: Twin Cities, Duluth, Morris, Crookston, and Rochester Campuses. The University of Minnesota website will provide links to each specific institution and their admissions requirements. Please refer to this website for the most detailed and updated information: www.umn.edu. In general, the U of M Universities require the following college preparatory classes when considering admission:

Subject Area	Number of Years	Special Recommendations
English	4	Emphasis on Writing, Speaking, Reading and Literary Appreciation
Math	4	Please reference the U of M TC website for more specific information
Science	3	Including one year each of biological and physical science
Social Studies	3	American History, Geography, World History
World Language	2	Two years of a single world language (3 recommended)
Arts/World Culture	1	Visual or performing arts

COLLEGE ADMISSIONS INFORMATION

3. Minnesota Private Colleges and Universities: The Minnesota Private Colleges/Universities website will provide general information about admissions requirements as well as links to each specific institution and their admissions requirements. Please refer to this website for the most detailed and updated information:

www.mnprivatecolleges.org. In general, Minnesota private colleges/universities require the following college preparatory classes when considering admission:

Subject Area	Number of Years	Special Recommendations
English	4	Emphasis on Writing, Composition and Literature

Please refer to this website for the most detailed and updated information:

www.wisconsin.edu. In general, Wisconsin State Universities (4-year) require the following college preparatory classes when considering admission:

Subject Area	Number of Years	Special Recommendations
English	4	Emphasis on Literature and Composition
Math	3	Algebra 1, Geometry, Algebra 2
Science	3	3 years of natural science
Social Studies	3	American History, Geography, World History
Foreign Language	varies	See college website for detailed requirement information
Academic Elective	4	Foreign Language, Fine Arts, Computer Science or other academic area

COLLEGE ADMISSIONS INFORMATION

5. Minnesota Public State Community and Technical Colleges:

<https://www.minnstate.edu/>

Most Minnesota State Community and Technical Colleges (2-years) admit students with a high school diploma (or equivalent) on a space available basis. Upon admission, students may be required to take a placement test in Math, Reading and Writing. If students do not meet minimum requirements (typically Algebra II for math), they will be enrolled in remedial (non-credit earning) courses in order to satisfy that requirement.

College Admission Testing:

Each four year institution will provide specific information about their college entrance exam requirements. Recently, many colleges have moved towards a “test optional” or “test blind” process which allows students to submit an ACT/SAT score if it will support other areas of their application (test optional), or not have the score considered under any circumstances (test blind).

- **ACT:** www.actstudent.org
- General testing information, testing dates, registration information, test taking strategies and practice tests are available at the official ACT website. Westonka High School is a test center for the National ACT test date in June, and also offers another opportunity to all junior students to take an official ACT (at a reduced cost) during the school day in Semester II each year. Students must register for any National ACT test date directly with the testing agency. Our high school CEEB (College Entrance Examination Board) code number is 241-775.
- **SAT:** www.collegeboard.com
- General information, testing dates, registration information, test taking strategies and practice tests are available on the College Board website. Although Westonka High School is not a testing site for the SAT, there are many options at nearby high schools and colleges. Students must register directly with the testing agency. Our high school CEEB (College Entrance Examination Board) code number is 241-775.
