

I have worked in many school districts in my lifetime and Westonka was by far my favorite one. It always felt like a community of people who truly cared about one another. It was a great place to teach my last remaining years!

With that being said, I will greatly miss everyone...the awesome staff, the incredible kids and amazing parents. May God continue to bless this district and all who serve it. Thank you so much for giving me this incredible experience that I will never forget
